Hostel floors lose the network.

Dead zones

Hostel floors often have dead zones, or no usable network.

Power cuts

During a power cut, phones cannot help the floor coordinate.

The tower

WhatsApp needs the tower. The floor does not always have it.

A floor board with no internet.

Android app

A local Offer / Ask / Note board on your floor. It works with no internet.

Nearby phones

Phones on the same floor can share posts over Bluetooth when the app is open.

Blackout mode

A full black screen with a timer, and I'm OK / Need help.

Board, blackout, and nearby sync.

Setup

Set name, room, and floor.

Floor board

Floor board with filters.

Claim

Claim posts on the floor.

History

History of posts.

Settings

App settings.

Blackout mode

Full black screen with a timer and I'm OK / Need help.

Nearby sync

Bluetooth nearby sync, same floor, when the app is open.

Offline alone

Fully usable offline alone.

The floor board.
